

# Diagram of an 120 gallon tank

from Solar Heat Exchange Manufacturing

- 1** Cold inlet
- 2** Hot outlet
- 3** Drain
- 4** To collectors
- 5** Sensor
- 6** Electric heating element
- 7** Sensor
- 8** From collectors
- 9** T&P valve
- 10** Mg anode

**Note:** All fittings are 3/4" NPT (National Pipe Thread) except for 1-1/2" element port.

**WEIGHT:** 325 lbs.

**PACKAGING:** 29<sup>1</sup>/<sub>2</sub>" x 30" x 68<sup>1</sup>/<sub>2</sub>"

**TANK DIMENSIONS:** 65" x 28"(diameter)
